

THE HC3 ADVANTAGE

Water containing hardness minerals is a little nuisance that can build up to a big problem over time, but the solution can be simple! Treating water with a Hague Hydroclean HC3 system means softer water at an economical price with low voltage technology.

Using the same quality construction of our higher end Hague softener, the Hydroclean HC3 is a dependable, low maintenance way to protect your hair, skin, and appliances from hard water. Ground water gathers hardness, iron, unpleasant tastes and odors, and dissolved impurities. Treating water with Hydroclean HC3 provides cleaner, softer water at an economical price.

Less Build-up
Protects Hair and Skin

Less Residue
Cleaner Dishes and Cutlery

Less Fading
Clothes Last Longer

Less Wear
Preserves Appliance Life

HAGUE
Quality Water International®

EXPERIENCE THE SOFT WATER DIFFERENCE

1. PATENTED VALVE: Built-in bypass to bring water to your home for watering your lawn or other high volume times.
2. CONTROLLER: Digital Dual-mode controller displays flow rates, protects your settings during power outage, and allows to set regeneration based on time or water used.
3. HIGH CAPACITY TANK: Maximum resin depth for longer water contact and efficient salt usage.
4. GRAVEL BED: Provides consistent water flow throughout media tank.
5. LOW-MAINTENANCE BRINE TANK: Salt storage creates brine solution used during regeneration.

The HC3 models 25, 25CX, 35, 48, and 105 are tested and certified by WQA according to CSA B483.1.
