HRO DRINKING WATER SYSTEM

A SIMPLE SOLUTION FOR BETTER WATER.

We use water for many different things every day, but the most important water is the kind we put into our bodies. Make sure you are drinking and cooking with higher quality water with the economical and easy to maintain **Hague HRO Reverse Osmosis** drinking water system.

The **HRO** has a multi-stage filtration process that includes a membrane to reduce contaminants at the microscopic level. This compact system is capable of producing 13 gallons of filtered water per day with a 3.2 gallon storage tank so you always have higher quality water available for your family's needs.

Eliminate the need to buy bottled water with this complete system. Enjoy the peace of mind that comes with having filtered water right at your finger tips with the **Hague HRO**.

Save The Environment
Reduces Bottled Water Use

Save Money Daily
Low Operating Costs

Improves Taste
Reduces Bad Odors

Multi-Stage Filtration
Higher Quality Water

2 YEAR LIMITED WARRANTY

QUALITY WATER IS JUST A FAUCET AWAY

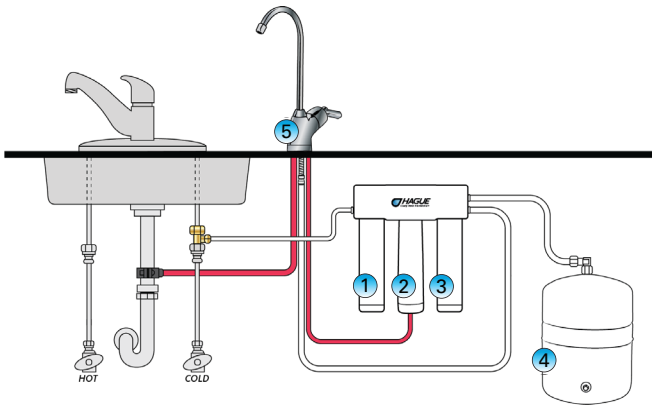

1. **PRE-FILTER:** The initial carbon block cartridge reduces any particles or chlorine to protect the life of the RO membrane.

2. **REVERSE OSMOSIS MEMBRANE:** A semi-permeable material that reduces contaminants at a microscopic level.

3. **POST-FILTER:** A final carbon block filter completes the process to remove any remaining foul tastes or smells.

4. **STORAGE TANK:** Holds 3 gallons of filtered water so it is ready when you need it.

5. **DRINKING WATER FAUCET:** Comes with seperate tap to save the best water for drinking and cooking.
